DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 39, 54-74, 75, drawn to a method of stimulating cell division, classified in class 514, subclass 2, for example.
 - II. Claim 41, 54-74, drawn to a method of healing a wound, classified in class 514, subclass 2, for example.
 - III. Claim 42, 48, 54-74, drawn to a method of treating ischemia, classified in class 514, subclass 2, for example.
 - IV. Claim 42, 49, 54-74, drawn to a method of treating peripheral vascular disease, classified in class 514, subclass 2, for example.
 - V. Claim 42, 50, 54-74, drawn to a method of treating neural injury, classified in class 514, subclass 2, for example.
 - VI. Claim 42, 51, 54-74, drawn to a method of treating a gastric ulcer, classified in class 514, subclass 2, for example.
 - VII. Claim 42, 52, 54-74, drawn to a method of treating a duodenal ulcer, classified in class 514, subclass 2, for example.
 - VIII. Claim 42, 53, 54-74, drawn to a method of treating heart disease, classified in class 514, subclass 2, for example.
2. The inventions are distinct, each from the other because of the following reasons:
3. Inventions I-VIII are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are directed to distinct methods which have different functions and effects, based on the preamble as well as administration to different cell populations based on the preambles.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the necessity for non-coextensive literature searches, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
